Vide reference above, the standard rake size / Minimum number of BTPN wagons to be loaded for availing trainload benefit has been revised from 49/47 to 50/48 wagons with effect from 10.01.2013.

Currently, two loading sidings and twenty-eight unloading sidings are unfit to handle rakes of 50 wagons. These sidings will be exempted from the above referred circular (Corrigendum No.35 of Rates Circular No.62/2009) till 31.03.2013. The list of exempted sidings is enclosed.

All concerned to note and act accordingly.
