CORRIGENDUM

Sub: Preferential Traffic Order G.O. No.96.

There is a typographical error with regard to Sub-Priority Class for iron ore traffic as circulated vide Para 3.1(b) of Board's letter of even number, dated 31.03.2022. This Para may be read as:

3.1(b) Iron ore traffic as under:

<table>
<tr><td>COMMODITY</td><td>CATEGORY OF PRIORITY</td></tr>
<tr><td>Iron- ore traffic</td><td>Customers owning steel/Pig Iron/Sponge Iron/Pellet/Sinter/Plants shall be classified into priority and sub-priority class as below:
<table>
<tr><th>Traffic Type</th><th>Priority</th><th>Sub-priority Class</th></tr>
<tr><td>When iron ore traffic or other raw material to steel plants is loaded from the customer's own private siding to his own private siding at unloading end for domestic manufacturer.</td><td>C</td><td>C+</td></tr>
<tr><td>When Iron ore traffic or other raw material to steel plants is booked from one end to the other and the customer is having his own private siding at either end for domestic manufacturer.</td><td>C</td><td>C</td></tr>
<tr><td>When the domestic manufacturer moves Iron ore traffic or other raw material to steel plants from any terminal to any terminal not owned by him at both the end.</td><td>C</td><td>C-</td></tr>
</table>
Note:

Priority C+ will get preference over Priority C which will get preference over Priority C-
Co-users of private sidings cannot be treated as owners of such terminals and will not get preference admissible to owners of private sidings.
PFT owners will not get benefit of higher Priority C.
Common user terminals in ports will be treated as Goods Shed.
Customers desirous of moving traffic under any of above mentioned priorities will approach Zonal Railways for updating its information like Customer Name, sister concerns name, ownership of private siding, whether domestic manufacturer or not etc.

</td></tr>
</table>
