- 2.0 It has been decided to make following amendments in the aforesaid policy:-
- 2.1 **Para 3.1 may be read as under:-**

3.1 - Unless otherwise specified by IR from time to time by suitable notification or any other means of communication, a PFT under this policy would be permitted to book and handle all traffic excluding programmed coal, coke and iron ore traffic. **Only outward loading of non-programmed coal for core & non-core sector is allowed. For booking & loading of non-programmed coal, conditions as laid down in Board's letter No. 2005/TT-V/25/CIL dated 07.12.2005 and Board's letter No. 2007/TT(V)/25/CIL dated 24.10.2007 should be followed strictly.**
- 2.2 **Para 3.8 may be read as under:-**

3.8 - Private sidings/terminals set up on private land on IR network and where third party cargo has already been permitted (on co-user basis or otherwise), **will have** to apply for becoming a Brownfield PFT and shall be governed under this policy.

For example at cement siding co-user permission can be given to handle cement, white cement or fly ash. If the co-user permission is desired to handle coal or fertilizer (third party cargo) the siding has to be converted into a PFT.
- 2.3 **New Para is added as 10.3, as under:-**

10.3 - The applicant can be a subsidiary company where the net worth of the holding company may be reckoned for the purpose of Para 10.1 and Para 10.2 above. The company can also be a joint venture company.
