Sub:

Procedure for booking of "Iron Ore Pellets".

Sir,

In continuation of this Directorate letter No.7750 dt.7.7.2011, this is to inform you that some of the producers of Iron Ore Pellets have approached this Directorate for allowing transport by rail without insisting for Mining License and permit thereon. Although the composition of Iron Ore (F_2O_3) is retained in Iron Ore Pellets it has not been classified as a mineral in the Ist Schedule appended to M&M(D&R) Act,1957 which govern all activities relating to ores and minerals. Moreover it is a product on which Central excise duty is levied.

It may therefore, be appropriate to allow movement of such product by rail without insisting for mining license and permit until provision in the relevant Act & Rules made there under is made.

Yours faithfully,

DIRECTOR OF MINES, ORISSA

Procedure for booking of "Iron Ore Pellets".

Sir,

In inviting a reference to your letter No.CCM/FS/RG-I/Ore/Pt-III-1724 dt.2.6.11 on the subject cited above, the following views on furnished for your reference. The Iron Ore pellets are primarily agglomerated iron ore/concentrates and these are also used as a substitute of Iron Ore in the Steel Plants. Therefore, for all practical purposes the pellets should be treated at par with the iron ore and procedures followed for dispatch of iron ore in respect of issuance of transit pass/permits, as prescribed in the O.M.Rules,2007, should be followed. This is for your kind information.

Yours faithfully,

DIRECTOR OF MINES,ORISSA.
