Bhubaneswar

Commercial Circular No.72(G)/2012

Date: 25.07.2012

Sub : Guidelines for weighment at loading points.

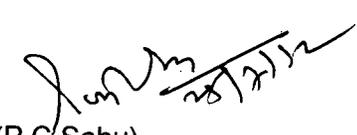

Ref : This office Commercial Circular No.125(G)/07 dtd.31.05.2007 and addendum there to.

Vide this office Commercial Circular under reference, the loading points, Via/ Route, Associated Weighbridge, Alternate Associated Weighbridge for the loading points has been notified and it has also been advised to set up a reliable means of communication between the Associated Weighbridges, Alternate Associated Weighbridges and the loading point concerned for communicating the results of the weighment to the loading point and RR will be prepared by the loading point duly including the punitive charges, if any, in the RR it self. Copy of the circular under reference is enclosed herewith.

It has been noticed that, RR for some of the rakes which were weighed at associated or alternate associated weighbridges could not be issued on actual weighment basis due to delay in supply / non-supply of weighment sheet to the loading point. In this connection, the following instructions should be strictly followed:

1. All loading points should ensure weighment of their loaded rakes at associated or alternate associated weighbridges and receipt of weighment statement.
2. All supervisory staff at the loading as well as the weighing station to confirm weighment and dispatch/ receipt of the weighment sheet to the loading point in time.
3. Clear cut instruction must be given about realization of undercharges, if weighment sheet received at loading point after issue of RR on SWA.
4. Fax should be made available at all weighbridge location and Non-TMS loading points/proxy points.

All concerned to note and act accordingly.
