Please refer to Rates Master Circular under reference on the above mentioned subject.

The matter has been reviewed and it has been decided to revise Paras 1.1.14, 2.2, 4.1 and 4.3(iii) (regarding Detention Charge) of afore-said Rates Master Circular, as under:-

"1.1.14 Since the information regarding weighment of the rake will be available in FOIS, the divisional control will ensure that all those rakes, which have not been weighed earlier, are positively weighed. Similarly, the rakes, which have been weighed earlier, should be reweighed only under special instructions of an authority not lower than DRM or under the instructions from officers of Vigilance department (SAG and above)."

"2.2 Difference between the weight of second weighment of consignment in a wagon at en-route/destination and the weight of first weighment at forwarding/en-route, may be neglected if the difference does not exceed 2(two) percent of the gross weight and in such cases weight of first weighment will continue to be chargeable weight. **If the variation between weight of second weighment and weight of first weighment is more than 2(two) percent, the weight of second weighment will be the chargeable weight (irrespective of the fact that weight of second weighment is less or more than the weight of first weighment) subject to minimum of Permissible Carrying Capacity of the concerned wagon and necessary Punitive Charge, if applicable, shall be realized as per extant rules.**"

"4.1 Zonal Railways should take immediate action to prepare detailed operating procedure to ensure that whenever wagons are found to be abnormally overloaded beyond permitted limits at the originating point, load adjustment of such wagons is done at the originating point itself. **However, if load adjustment is not feasible at originating point due to operational constraints, railway administration may permit load adjustment at nearby suitable location. The wagons shall be carried at a restricted speed upto such point where excess quantity may be unloaded or alternatively wagons are detached.**"
