"Para 1.7 (v): For intermediate loading point in any inter-zonal TEFD O-D flow, Divisions just before the destination division shall not be eligible for the concession. This will also be applicable in case where all the divisions of destination zone have been allowed to get benefit under TEFD.

"Para 1.7 (vi): In case of inter-zonal TEFD, all the divisions of the destination zone will be eligible for discounted freight under the scheme. Each division of the destination zone will be treated as a separate O-D pair. However, for all divisions on a zone other than the destination division on a TEFD O-D pair, the charging will be done at **class-100(train load) and class-110(wagon load).**"
