

ACHIEVEMENTS OF ELECTRICAL(OP) ORGANISATION DURING 2020-21

- Crews have served **69278** Train Orders (TO) compared to **56524** TO in corresponding period the last year.
- Diesel locomotive utilization is **505** KM/Loco/day compared to **484** KM/Loco/day during last year
- Electric locomotive utilization is **505** KM/Loco/day compared to **412** KM/Loco/day during last year.
- There are 0 nos of stalling cases of Diesel Goods Trains compared to **04** nos of stalling cases last year.
- There are 04 no of stalling cases involving Electric trains compared to 3 nos cases in last year.
- Electric conversion training is completed for all Loco pilots, Sr.ALPs & ALPs.
- Diesel loco failures is **45** nos compared to **90** nos in the same period last year.
- Electric loco failures is **0.50** loco failures per unit loco holding compared to **0.55** loco failures per unit loco holding in the same period last year .
- The division has saved HSD oil of **150.075** KLS amounting **Rs 1.173** Crores by shutting down diesel locomotives.
- Safety counseling has been organized on various safety related matters by Electrical (OP) department at Crew Lobby SBP & TIG by maintaining social distancing and **7607** nos of running staffs have been counseled.
- During the year, **623** running staffs have been completed refresher course training.
- **All** diesel passenger trains are converted to Electric trains thus saving diesel fuel consumption and improving economy of train operation
- As per Railway Board's Policy of making all running rooms air-conditioned for better relaxation of running staff, Air conditioning system has been provided at running room, SBP & TIG of SBP division.
- During the year Electrical (OP) department has undertaken **25** safety drives on various safety related issues and **9509** nos of running staffs have been counseled.
- The division has regenerated **14566120** KWH of electricity by application of regenerative braking in three phase electric locomotives.
