

### **3. Cleanliness and sanitation**

At Puri Railway Station, cleanliness is maintained in a well coordinated manner with divine attitude for the fulfillment of passengers basic amenities and maintaining pleasant atmosphere at Station premises. Mechanical department is dealing with coach cleaning whereas maintenance of cleanliness at station premises is dealt by Environment & Housekeeping Management (EnHM) Wing.

The cleanliness of Station premises is maintained by EnHM Wing through mechanized cleaning contract. The contractual staffs are working in 3- Shifts on daily basis. Advanced cleaning equipments are used for cleaning purpose. Adequate numbers of dustbins are provided inside and outside station area to ensure segregation of waste at source. The collected Organic waste are further utilized in Biogas Plant where as the inorganic waste are handed over to Municipal Authorities for further disposal at their end. Two (02) Plastic Bottle Crushing Machines have been installed on platform to collect PET bottles .

Awareness among passenger plays an indispensable role for maintaining cleanliness. This awareness is created by displaying posters & banners and through public announcement system. Passengers are penalized for littering at station premises. Special attention towards cleanliness is focused during Cleanliness Drives i.e. Swachh Pakhwada and Swachhta Hi Seva Abhiyan..
