Dated 04.03.2020

To  
The Principal Financial Advisor  
E.Co.Rly./ Bhubaneswar.

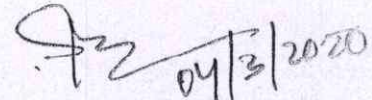

Sub.: Implementation of Quarter Module.

During vigilance check it is noticed in the salary bill of some units that there are discrepancies in recovery of house rent and electric charges on allotted quarter. In some cases it is seen that house rent allowances is being admitted along with recovery of house rent. In some other cases it is seen that house rent is being deducted without electric charges of same staff and vice-versa . To eliminate such irregularities, it is necessary to implement the quarter module in co-ordination with Engineering and Electrical department in IPAS so that date of occupation, type of quarter, department , name of the occupant and related recoveries thereof can be streamlined through system itself.

In view of the above, it is requested to implement quarter module in IPAS at the earliest over ECoR .

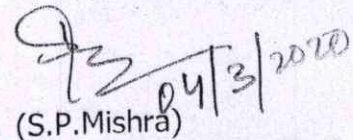

This may be treated "**Urgent**".

This issues with the approval of SDGM.
