No-GM/Vig/EcoR/ Introduction of Q-system /20/ 800 Date 05.03.2020

To
The DRM,
KUR, WAT & SBP,
East Coast Railway.

Sub- Suggestion for system improvement regarding introduction of Q- system for occupation of seats in Un-reserved coaches of in-demand originating trains.

During course of Vigilance check, it was observed that passengers are running on the platform to get into the general coach and to get a seat in the trains originating from major stations, while the the empty rake is placed on platform. Running of passengers with luggage, children, senior citizens etc. along the train on move have possibility of falling down and run-over by the trains.

Hence, it is requested to get all such vulnerable train originating stations identified and deploy RPF staff to introduce Q-system for the passengers of general class in such trains so that passengers can entrain smoothly and any untoward incidents can be avoided.

This issues with the approval of SDGM/ECOR/BBS.
