Date :- 14.05.2020

Dear Smt. Manga,

Sub:- Maintenance of selected EI stations departmentally.

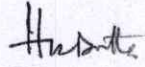

Electronic Interlocking system has been introduced in this railway more than 10 years back. As a part of any EI project, our staff are getting trained to handle issues related to Electronic Interlocking systems. But, it is seen that we are not able to handle even the smallest of the small issues pertaining to EI departmentally. This situation has made us total subservient to the OEM and the supplier. Therefore, it is high time we engage our competent and trained staff to attend different issues pertaining to EI systems.

You are advised to nominate at least one station in each division to be maintained departmentally by our technical staff who have been trained in EI.

Action taken in this regard may be communicated at an early date.

With regards,

Yours sincerely,

(H.K.Dutta)

Mrs. S.Manga.V,
PCSTE/ECoR-BBS
