Sub: System improvement — opting stop salary in IPAS for long absentees.

During vigilance check, it was noticed that Smt K.S.P. Anushita, SSE/Tele/WAT had been removed from service w.e.f 03.02.2021 under the charges of long absent. On this account, she had not been credited salary from the period Feb-2020 to Jan-2021. However, salary had been credited for the month of Feb-2021 of Rs. 44,947/- by the Bill clerk, who failed to act as per the M/roll. Concerned Bill clerk managed to post absent/LWP data in IPAS for the entire period upto Jan-2021 except the month of Feb-2021, by which irregular drawl of salary took place in favour of Smt K.S.P. Anushita. Such instances must have been avoided if the bill clerk would have initiated stop salary option in IPAS system where absent period continued for subsequent month(s). Recoveries of amount paid, from long absentees, may not be possible, in case they do not turn up & left services without intimation, which would surely cause leakage of revenue.

Moreover, it has been noticed that staff joining after long absent, were not taken up under D&A rules. Appropriate D&A action needs to be taken against such absentees.

In this connection, suitable directions may be issued to all concerned that employees absented for more than a month should be kept under stop salary option in IPAS system in order to curb irregular drawl of salary, especially for long absentees. Action taken report on the issue may be intimated for appraisal of competent authority.

This issues with the approval of SDGM.
