PCCM, PCOM, PFA
East Coast Railway,

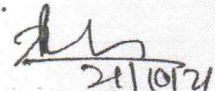

- Sub: System improvement to avoid non-collection of Empty Haulage charges on privately owned wagons such as BTAP/BTCS etc.
- Ref: 1) Sr.DCM/SBP's Lt.No.Comml/Frt/HC/BTAP/20 dt.14.09.2020
2) Sr.DCM/Wat's Lt.No.WCG/LWIS/UAIL/Vig. Dt.11/09/2020 & Lt.No.WCG/2/UAIL/LWIS/Vig. Dt.18/05/2021.
3) DRM/SBP's Lt.No.GA/SBP/51/Empty Haulage charges/BTAP dt.03.09.2020.

Vigilance checks over some private sidings such as HIWS & MAVB (SBP division) and MUAT siding (WAT division) were conducted in 2020 on the aspect of non-collection of Empty Haulage charges which is leviable for privately owned LWIS/GPWIS rakes whenever the empty lead of the rake is more than its immediate previous loaded lead. As a result of such checks, undercharges amounting to more than rupees 05 crores were realized from the private parties due to non-generation of Empty Haulage RRs and therefore non-collection of Empty Haulage charges as communicated by your office vide letters under reference.

In view of the above, a Joint Procedure Order(JPO) may be issued by Commercial Department (Nodal Deptt.), Operating Department & Traffic Accounts Department outlining the duties of each staff/department at the concerned Goods Terminal so that such irregularities can be avoided in future.

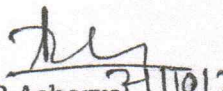

PCCM may also advise to CRIS to make a programming in FOIS so that privately owned empty rakes can be tagged with its immediate loaded rakes so that Empty Haulage RRs can be generated by the system automatically.

Action taken on the above, may kindly be intimated to this office.
This has the approval of SDGM/ECOR.
