No: ECoR/V-3/S&T/PC/39/20/ 3231

Dt. 24.12.2021

To,
The Principal Chief Signal and Telecom Engineer,
East Coast Railway,
Bhubaneswar.

Sub : Provision of EI in place of RRI at PRDP.

One vigilance investigation was carried out on provision of EI in place of RRI at PRDP. In this case it is found that Estimates were prepared without approved engineering plan and tentative SIP leading to irregularity. With the approval of SDGM/ECoR, the following system improvement is hereby suggested for wide circulation to all concerned.

"For any major yard remodeling or new signaling installation, estimate should be prepared after receipt of approved and freezed engineering plan, approved SIP or at least a tentative SIP with traffic requirement for estimation purpose to avoid further substantial variation in quantities in the estimate".

The implementation of the system improvement may be intimated to this office.
