To,
The Principal Chief Signal and Telecom Engineer,
East Coast Railway,
Rail Sadan, Bhubaneswar.

Sub: Provision in IPIS contracts for 'OEM to share system information to S&T maintenance staff for minor changes.'

In some preventive vigilance checks on working of Integrated Passenger Information System (IPIS) at stations it is found that:

1. There is no provision in the contract agreement for handing over master adminID & password for updating IPIS driving software.
2. Training of S&T staff for maintenance and minor alteration of the IPIS system was not included in the tender schedule.

Due to which after completion of the contract period and warranty period S&T maintenance staff are unable to add any new train or do any minor change for inclusion of special trains in the system.

It is requested divisions may be advised to include these small items in all new IPIS tenders to avoid dependency on OEM during normal maintenance.

This has got approval of SDGM.
