No. GM/Vig/ECOR/Advisory/39/2022 / 3511

Date:-06.12.2022

**Vigilance Advisory No.2022/39**

To,

**All PHODs,  
East Coast Railway,  
Bhubaneswar.**

**Sub:** Advisory related to clubbing service contracts of similar natures of work while calling tender for a particular station.

\*\*\*\*\*

It is observed during various vigilance checks that at a particular station multiple tenders are invited and awarded to a single bidder having similar nature/scope of works. May be there is a scope of a fixed group of manpower being deployed for different contracts. This leads to hamper the quality of works executed and Railway may be incurring high expenditure.

Therefore, it is advised to scrutinise critically, the activities & scope of work of the service contracts to float in one tender if possible by clubbing similar activity/scope of works at a same location.

This is issued with the approval of SDGM/ECOR.
