Vigilance Advisory No. – 2023/12

To,
The Principal Chief Signal & Telecom Engineer,
East Coast Railway,
Rail Sadan, Bhubaneswar.

Sub: Introduction of a system of periodical checking for periodical maintenance of equipment in AMC contracts at officer level

During investigation of several AMC contracts, it has been observed that the periodical maintenance in AMC contracts was carried out in presence of firm service engineer and railway representative up to the rank of SSE/Signal or Tele. The controlling officers are not checking the AMC registers regarding observance of time schedule of periodical maintenance and details of checking done. Only during bill passing the performance reports of the AMC visits were countersigned by the controlling officer.

Hence it is requested to introduce a system of periodical checking at the officer level, for the periodical maintenance done by the firm's service engineer, for the equipment under AMC at the stations.

Compliance in this regard may please be intimated to this office for record.

This issues with the approval of SDGM.
